

CT REAL ESTATE INVESTMENT TRUST

MANAGEMENT’S DISCUSSION AND ANALYSIS

THIRD QUARTER 2018

Forward-looking Disclaimer

This Management’s Discussion and Analysis (“MD&A”) contains statements that are forward-looking. Actual results or events may differ materially from those forecasted in this disclosure because of the risks and uncertainties associated with the business of CT Real Estate Investment Trust and its subsidiaries, (referred to herein as “CT REIT; “Trust” or “REIT; unless the context requires otherwise), and the general economic environment. CT REIT cannot provide any assurance that any forecasted financial or operational performance will actually be achieved or, if achieved, that it will result in an increase in the price of CT REIT’s units. See section 13.0 in this MD&A for a more detailed discussion of the REIT’s use of forward-looking statements.

1.0 PREFACE

1.1 Basis of Presentation

The following MD&A is intended to provide readers with an assessment of the performance of CT REIT[®] for the three and nine months ended September 30, 2018 and should be read in conjunction with the REIT's unaudited condensed consolidated interim financial statements ("interim financial statements") and accompanying notes for the three and nine months ended September 30, 2018 which have been prepared in accordance with International Financial Reporting Standards ("IFRS"). In addition, the following MD&A should be read in conjunction with CT REIT's forward-looking information statement found in section 13.0 of this MD&A. Information about CT REIT, including the 2017 Annual Information Form ("AIF"), its 2017 audited annual consolidated financial statements and all other continuous disclosure documents required by the Canadian securities regulators, can be found on the System for Electronic Document Analysis and Retrieval ("SEDAR") website at www.sedar.com and on CT REIT's website in the Investors section by a link at www.ctreit.com.

1.2 Definitions

In this document, the terms "CT REIT", "REIT", and "Trust", refer to CT Real Estate Investment Trust[®] and its subsidiaries unless the context requires otherwise. In addition, "Company", "CTC" and "Corporation" refer to Canadian Tire Corporation, Limited, entities that it controls and their collective businesses unless the context requires otherwise.

This document contains certain trade-marks and trade names of CTC and is the property of CTC. Solely for convenience, the trade-marks and trade names referred to herein may appear without the ® or ™ symbol.

1.3 Accounting Estimates and Assumptions

The preparation of the interim financial statements in accordance with IFRS requires management to make judgments and estimates that affect the application of accounting policies and the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the interim financial statements and the reported amounts of revenue and expenses during the reporting period. Refer to section 9.0 in this MD&A for further information.

Financial data included in this MD&A includes material information as of November 5, 2018. Disclosure contained in this document is current to that date, unless otherwise noted.

1.4 Quarterly Comparisons in this MD&A

Unless otherwise indicated, all comparisons of results for Q3 2018 (three and nine months ended September 30, 2018) are against results for Q3 2017 (three and nine months ended September 30, 2017).

All amounts in this MD&A are in thousands of Canadian dollars, except per unit, unit, square foot amounts or unless otherwise indicated. Rounded numbers are used in this MD&A and, as such, totals may not add up to 100 percent.

1.5 Key Operating Performance Measures and Additional Non-GAAP Measures

The key operating performance measures used by management may not be comparable to similar measures presented by other real estate investment trusts or enterprises. Net income prepared in accordance with IFRS is also subject to varying degrees of judgment, and some meaningful differences in accounting policies exist between publicly traded entities in Canada. Accordingly, net income as presented by CT REIT may not be comparable to net income presented by other real estate investment trusts or enterprises.

Net operating income ("NOI"), same store NOI, same property NOI, funds from operations ("FFO"), FFO per unit - basic, FFO per unit - diluted (non-GAAP), adjusted funds from operations ("AFFO"), AFFO per unit - basic, AFFO per unit - diluted (non-GAAP), AFFO payout ratio, adjusted cashflow from operations ("ACFO") and earnings before interest and other financing costs, taxes and fair value adjustments ("EBITFV") are measures used by management to track and assess CT REIT's performance in meeting its principle objective of creating Unitholder value (collectively referred to as "non-GAAP measures"). These non-GAAP measures are not defined by IFRS, also referred to as generally accepted accounting principles ("GAAP"), and therefore should not be construed as alternatives to net income or cash flow from operating activities calculated in accordance with IFRS.

For further information on the non-GAAP measures used by management and for reconciliations to the nearest GAAP measures, refer to section 10.0.

1.6 Review and Approval by the Board of Trustees

The Board of Trustees (the "Board"), on the recommendation of its Audit Committee, approved for issuance this MD&A on November 5, 2018.

1.7 Nature and Formation

CT REIT is an unincorporated, closed-end real estate investment trust established on July 15, 2013 pursuant to a declaration of trust under, and governed by, the laws of the Province of Ontario as amended and restated as at October 22, 2013 (the "Declaration of Trust"). CT REIT commenced operations on October 23, 2013. The principal, registered and head office of CT REIT is located at 2180 Yonge Street, Toronto, Ontario M4P 2V8. CTC owned an 85.5% effective interest in CT REIT as of September 30, 2018, consisting of 59,711,094 of the issued and outstanding units of CT REIT ("Units") and all of the issued and outstanding Class B limited partnership units ("Class B LP Units") of CT REIT Limited Partnership (the "Partnership"), which are economically equivalent to and exchangeable for Units. The holders of Units and Class B LP Units are collectively referred to as "Unitholders". CTC also owns all of the Class C limited partnership units ("Class C LP Units") of the Partnership. The Units are listed on the Toronto Stock Exchange ("TSX") under the symbol CRT.UN.

CT REIT has one segment for financial reporting purposes which comprises the ownership and operation of primarily retail investment properties located across Canada.

2.0 GROWTH STRATEGY AND OBJECTIVES

The following section contains forward-looking information and readers are cautioned that actual results may vary.

The principal objective of CT REIT is to create Unitholder value over the long-term by generating reliable, durable and growing monthly distributions on a tax-efficient basis. To achieve this objective, management is focused on expanding the REIT's asset base while also increasing its AFFO¹ per unit.

Future growth is expected to continue to be achieved from a number of sources including:

1. The portfolio of Canadian Tire store leases generally contains contractual rent escalations of approximately 1.5% per year, on average, over the initial term of the leases and have a weighted average remaining lease term of 11.0 years;
2. CT REIT has contractual arrangements with CTC whereby CT REIT has a right of first offer² ("ROFO") on all CTC properties which meet the REIT's investment criteria and preferential rights, subject to certain exceptions, to participate in the development of, and to acquire, certain new retail properties; and
3. CT REIT will continue to seek to use its relationship with CTC to obtain insights into potential real estate acquisitions and development opportunities in markets across Canada.

¹ Non-GAAP measure. Refer to section 10.0 for further information.

² The ROFO Agreement shall continue in effect until the later of October 2023 and such time as CTC ceases to hold a majority of the voting units, being the Units and Special Voting Units (as defined in section 70).

3.0 SUMMARY OF SELECTED FINANCIAL AND OPERATIONAL INFORMATION

Readers are reminded that certain key performance measures may not have standardized meanings under GAAP. For further information on the REIT's operating measures and non-GAAP measures, refer to sections 1.0 and 10.0.

4.0 OVERVIEW OF THE PROPERTY PORTFOLIO

4.1 Property Profile

The property portfolio as at September 30, 2018 consists of 324 retail properties, four distribution centres ("DC"), one mixed-use commercial property and 11 properties under development (collectively, the "Properties"). The Properties are located in each of the provinces and in two territories across Canada. The properties, DCs and mixed-use commercial property contain approximately 26.4 million square feet of gross leasable area ("GLA").

CT REIT's consolidated financial position, results of operations and property portfolio analyses include the REIT's one-third interest in Canada Square, a mixed-use commercial property in Toronto, Ontario. CTC is CT REIT's most significant tenant. At September 30, 2018, CTC represented 94.5% of total GLA (December 31, 2017 - 95.3%) and 92.7% of annualized base minimum rent (December 31, 2017 - 93.2%).

CT REIT's property portfolio's occupancy, excluding properties under development, is as follows:

(in square feet)	As at September 30, 2018		
	GLA	Occupied GLA	Occupancy rate ²
Property Type			
Canadian Tire stores	20,304,267	20,304,267	100%

¹ Includes purchased lands for \$13,911 (December 31, 2017 - \$9,209) held for development.

Properties under development include:

- the development of vacant land and building construction;
- intensification activities, consisting of the construction of additional buildings on existing assets, and modifications to existing stores; and
- the redevelopment of a property.

As at September 30, 2018, management's determination of fair value was updated for current market assumptions, informed by market capitalization rates provided by independent valuation professionals.

CT REIT had obtained independent valuations such that substantially all of its properties were externally appraised over a four-year period. CT REIT has modified its use of independent valuations for Q4 2018. The scope of properties subject to external valuations over the four year cycle has changed from 100% to approximately 80% of the portfolio's IFRS fair value by excluding any single tenant asset that has a fair value, in management's estimation, below a certain threshold.

Valuations determined by the overall capitalization rate ("OCR") method are most sensitive to changes in capitalization rates. Valuations determined by the discounted cash flow ("DCF") method are most sensitive to changes in discount rates.

The significant inputs used to determine the fair value of CT REIT's income-producing properties are as follows:

	Properties valued by the OCR method	Properties valued by the DCF method
Number of properties	282	58
Value at September 30, 2018	\$ 4,178,531	\$ 1,467,255
Discount rate	—%	6.96%
Terminal capitalization rate	—%	6.52%
Overall capitalization rate	6.17%	—%
Hold period (years)	—	10

The following table summarizes the sensitivity of the fair value of income-producing properties to changes in the capitalization rate and discount rate, respectively:

Rate sensitivity	OCR Sensitivity		DCF Sensitivity	
	Fair value	Change in fair value	Fair value	Change in fair value
+ 75 basis points	\$ 3,737,407	\$ (441,124)	\$ 1,339,603	\$ (127,652)
+ 50 basis points	3,873,226	(305,304)	1,379,215	(88,041)
+ 25 basis points	4,019,925	(158,606)	1,421,853	(45,403)

- 50 basis points	4,538,827	360,296	1,571,825	104,570
- 75 basis points	\$ 4,744,616	\$ 566,085	\$ 1,630,884	\$ 163,628

Included in CT REIT's portfolio are 10 properties which are situated on ground leases with remaining initial terms of between one and 38 years, and an average remaining initial term of 14 years. Assuming all extensions are exercised, the ground leases have remaining terms between 24 and 72 years with an average remaining lease term of 38 years.

As at September 30, 2018, CT REIT had committed lease agreements for 1,070,500 square feet, of which 71% has been leased to CTC. A total of \$126,333 has been expended to date on the developments described above, and CT REIT anticipates investing an additional \$92,737 to complete the committed developments. Included in the commitment is \$76,121 due to CTC. These commitments exclude the redevelopments at Canada Square, Ontario and Calgary, Alberta properties.

In Q1 2018, CT REIT completed the acquisition of development lands in Grand Falls-Windsor, Newfoundland, from a third party. The REIT expects to construct a 65,000 square foot Canadian Tire store by Q2 2019.

In Q2 2018, CT REIT completed the acquisition of development lands in Mount Forest, Ontario, from CTC, where CT REIT expects to construct a 34,000 square foot Canadian Tire store by Q2 2019.

In Q3 2018, CT REIT completed the acquisition of a development property in Grande Prairie, Alberta, from CTC, where CT REIT expects to construct a 149,000 square foot Canadian Tire store by Q2 2019. During Q3, CT REIT also completed the acquisition of development lands in Fort St. John, British Columbia, from CTC, for a multi-phased development project which includes the construction of a 126,000 square foot Canadian Tire store by Q2 2020. CT REIT also completed the acquisition of development lands in Val-d'Or, Quebec, from a third party, for the expansion of an existing Canadian Tire store which is expected to be completed in Q4 2019.

4.7 Investment and Development Funding

Funding of investment and development activities for the three and nine months ended September 30, 2018 was as follows:

4.8 Lease Maturities

CTC is CT REIT's most significant tenant. As at September 30, 2018, CTC, including Canadian Tire stores and Other CTC Banners, had leased 24.7 million square feet of GLA, with approximately 85.1% and 14.9% of the GLA attributable to retail and office, and DC properties, respectively. The weighted average term of the retail leases with CTC, including Canadian Tire stores and Other CTC Banners, was 10.8 years, excluding the exercise of any renewal options. The weighted average term of the Canadian Tire store leases was 11.0 years, with a weighted average rental rate of \$13.42 per square foot. The weighted average lease term for CTC DCs was 15.0 years. The weighted average lease term of all tenants in the REIT's portfolio, excluding those properties under development, was 10.7 years.

The following graph presents the lease maturity profile from 2018 to 2037 (assuming tenants do not exercise renewal options or termination rights, if any) as a percentage of annualized base minimum rent and GLA as of the time of the lease expiry.

4.9 Top 10 Tenants Excluding CTC Banners

CT REIT's 10 largest tenants, excluding all Canadian Tire stores and Other CTC Banners and those tenants located in properties under development, as represented by the percentage of total annualized base rental revenue, are:

Rank	Tenant Name	Percentage of total annualized base minimum rent ¹
1	Canadian Imperial Bank of Commerce	0.51%
2	TJX Companies	0.45%
3	Overwaitea Food Group	0.39%

¹ Occupancy and other leasing key performance measures have been prepared on a committed basis which includes the impact of existing lease agreements contracted on or before September 30, 2018.

4.10 Leasing Activities

The future financial performance of CT REIT will be impacted by occupancy rates, trends in rental rates achieved on leasing or renewing currently leased space, and contractual increases in rent. As at September 30, 2018, the REIT's occupancy rate was 98.7% (Q4 2017 - 98.6%), excluding properties under development, refer to section 4.1 for further details. The REIT continues to actively pursue tenants for occupancy of income-producing and development properties.

4.11 Recoverable Capital Costs

Many of the capital costs that will be incurred by CT REIT are recoverable from tenants pursuant to the terms of their leases. The recoveries will occur either in the year in which such expenditures are incurred or, in the case of a major item of repair, maintenance or replacement, on a straight-line basis over the expected useful life thereof together with an imputed rate of interest on the unrecovered balance at any point in time. Capital expenditures of \$9,867 (Q3 2017 - \$8,307) and \$11,921 (YTD 2017 - \$14,100) were incurred during the three and nine months ended September 30, 2018. Most of the REIT's recoverable capital expenditures relate to parking lots, roofs and heating, ventilation and air conditioning, activities that are typically seasonal.

5.0 RESULTS OF OPERATIONS

5.1 Financial Results for the Three and Nine Months Ended September 30, 2018

CT REIT's financial results for the three and nine months ended September 30, 2018 and September 30, 2017 are summarized below:

(in thousands of Canadian dollars, except per unit amounts) For the periods ended September 30,	Three Months Ended			Nine Months Ended

Property Revenue

Property revenue includes all amounts earned from tenants pursuant to lease agreements including property taxes, operating costs and other recoveries. Many of CT REIT's expenses are recoverable from tenants pursuant to their leases, with the REIT absorbing these expenses to the extent that vacancies exist.

Total revenue for the three months ended September 30, 2018 was \$117,662 which was \$8,372 (7.7%) higher compared to the same period in the prior year primarily due to base rent related to properties acquired and intensification activities completed during 2018 and 2017. Total revenue included expense recoveries in the amount of \$24,392 (Q3 2017 - \$20,844).

Total revenue for the nine months ended September 30, 2018 was \$353,161 which was \$21,122 (6.4%) higher compared to the same period in the prior year primarily due to base rent related to properties acquired and intensification activities completed during 2018 and 2017. Total revenue included expense recoveries in the amount of \$74,977 (2017 - \$68,607).

The total amount of base rent to be received from operating leases is recognized on a straight-line basis over the term of the lease. For the three months ended September 30, 2018, straight-line rent of \$4,671 (Q3 2017 - \$5,683) was included in total property revenue. For the nine months ended September 30, 2018, straight-line rent of \$13,869 (2017 - \$17,174) was included in total property revenue.

Property Expense

The components of property expense consist primarily of property taxes, other recoverable operating expenses, property management (including the outsourcing of property management services) and ground rent. The majority of expenses are recoverable from tenants, with CT REIT absorbing these expenses to the extent that vacancies exist.

Property expenses for the three months ended September 30, 2018 increased \$3,499 (15.4%) compared to the same period in the prior year primarily due to property acquisitions completed during 2018 and 2017.

Property expenses for the nine months ended September 30, 2018 increased \$7,266 (9.7%) compared to the same period in the prior year primarily due to property acquisitions completed during 2018 and 2017.

The following section contains forward-looking information and readers are cautioned that actual results may vary.

General and Administrative Expense

CT REIT has a number of broad categories of general and administrative expenses: (i) personnel, (ii) public entity and other costs, including external audit fees, trustee compensation expense, legal and professional fees, travel, income tax expense (recovery) related to CT REIT GP Corp.'s ("GP") activities, and land transfer tax; and (iii) outsourced costs, which may fluctuate depending on when such costs are incurred. The personnel, public entity and other costs reflect the expenses related to ongoing operations of CT REIT. The outsourced costs are largely related to certain administrative, financial, information technology, internal audit and other support services provided by CTC to the REIT pursuant to the Services Agreement, as further described in section 8.0.

(in thousands of Canadian dollars)	Three Months Ended			Nine Months Ended

The REIT has historically outsourced a number of its functions with respect to property management and support services. Management has commenced the process to insource certain of these functions while maintaining other outsourced relationships. The REIT has contracted to install an information system ("ERP") by mid-2019. This will change the REIT's financial reporting and certain operating systems and it will become less reliant on CTC systems. The scope of services provided by CTC under the Services Agreement will be amended. The REIT will end the relationship with one of its external property management services providers, also expected in mid-2019.

The REIT will continue to have the Property Management Agreement and the Services Agreement with CTC although the scope of services will change resulting in a net reduction in costs under the agreements, once the changes are fully implemented.

The REIT expects that there will be a net positive change related to general and administrative expenses and property operating expenses once the transition is completed.

General and administrative expenses amounted to \$2,780 or 2.4% of property revenue for the three months ended September 30, 2018 which is \$613 (28.3%) higher compared to the same period in the prior year primarily due to:

- increased personnel expenses due to the variable components of unit based awards and increased headcount; and
- a \$210 increase in consulting and Services Agreement costs related to the new ERP CT REIT expects to implement in 2019; and
- decreased income tax recovery recorded in connection with GP's activities which resulted in a drawdown of the REIT's deferred tax assets.

General and administrative expenses amounted to \$8,736 or 2.5% of property revenue for the nine months ended September 30, 2018 which is \$413 (5.0%) higher compared to the same period in the prior year primarily due to:

- a \$240 increase in consulting and Services Agreement costs related to the new ERP CT REIT expects to implement in 2019; and
- increased personnel expenses due to increased headcount; partially offset by
- decreased personnel compensation due to the variable components of unit based awards.

Net Interest and Other Financing Charges

As at September 30, 2018 the Partnership had 1,451,550 Class C LP Units outstanding with a face value of \$1,451,550 and bearing a weighted average distribution rate of 4.70% per annum. The Class C LP Units are subject to redemption rights. Accordingly, the Class C LP Units are classified as financial liabilities and distributions on the Class C LP Units are presented in the net interest and other financing charges in the interim statements of income and comprehensive income.

Net interest and other financing charges are comprised of the following:

(in thousands of Canadian dollars) For the periods ended September 30,	Three Months Ended			Nine Months Ended		
	2018	2017	Change	2018	2017	Change

¹ CTC elected to defer receipt of distributions on the Series 3-12 and Series 16 and Series 19 Class C LP Units for the three and nine months ended September 30, 2018 in the amount of \$16,916 (Q3 2017 - \$16,916) and \$45,110 (YTD 2017 - \$45,463), respectively, until the first business day following the end of the fiscal year and receive a loan in lieu thereof. The deferred distributions have been netted against interest payable on Class C LP Units and are included under the heading "other liabilities" on the interim balance sheets.

² Paid or payable to CTC.

Net interest and other financing charges for the three and nine months ended September 30, 2018 was \$1,990 (8.2%) and \$6,341 (8.8%) higher, respectively, compared to the same period in the prior year primarily due to increased interest on the debentures issued in June 2017 and February 2018, partially offset by savings resulting from the redemption of Series 10-15 Class C LP Units in May 2017, changes in the utilization of the Bank Credit Facility and increased interest capitalization on development projects in 2018. The net effect is that the REIT has replaced short term inexpensive variable rate debt with longer term higher fixed rate debt, which has served to reduce CT REIT's interest rate and refinancing risks.

Fair Value Adjustment on Investment Properties

The fair value gain on investment properties for the three months ended September 30, 2018 increased by \$6,315 compared to the same period in the prior year. The increase in the fair value adjustment on investment properties is primarily due to net decreases in the capitalization rates used for certain investment properties located in Quebec.

The fair value gain on investment properties for the nine months ended September 30, 2018 decreased by \$880 compared to the same period in the prior year primarily due to the increase in value of completed developments recorded in Q1 2017 and a gain in value on an industrial property located in Quebec in Q2 2017 primarily due to a slight decrease in the capitalization rate. There was a similar but smaller gain recorded in Q3 2018 on properties located in Quebec due to a net decrease in capitalization rates.

Income Tax Expense

Management operates CT REIT in a manner that enables the REIT to continue to qualify as a real estate investment trust pursuant to the Income Tax Act (Canada) ("ITA"). CT REIT distributes 100% of its taxable income to Unitholders and therefore does not incur income tax expense in relation to its activities.

If CT REIT fails to distribute the required amount of taxable income to Unitholders, or if CT REIT fails to qualify as a REIT under the ITA, substantial adverse tax consequences may occur. Refer to section 11.0 in CT REIT's 2017 annual MD&A for further information.

Net income increased by \$8,585 (12.2%) and \$6,222 (2.8%), respectively, for the three and nine months ended September 30, 2018 compared to the same periods in the prior year for the reasons discussed previously.

Net income per unit - basic increased by \$0.039 (11.8%) and \$0.012 (1.1%) for the three and nine months ended September 30, 2018 compared to the same periods in the prior year primarily due to an increase in the weighted average number of units outstanding - basic, partially offset by increased net income, as discussed previously.

Net income per unit - diluted increased by \$0.021 (7.6%) and \$0.001 (0.1%) for the three and nine months ended September 30, 2018 compared to the same period in the prior year primarily due to an increase in net income, as discussed previously, partially offset by an increase in the dilutive effect of settling Class C LP Units with Class B LP Units and an increase in the weighted average number of units outstanding - basic.

5.2 Non-GAAP Measures

In addition to the GAAP measures already described, CT REIT management uses non-GAAP measures in assessing the financial performance of CT REIT. Refer to section 1.0 and 10.0 in this MD&A for further information.

Net Operating Income

NOI for the three months ended September 30, 2018 increased \$5,886 (7.3%) compared to the same period in the prior year primarily due to the acquisition of income-producing properties and properties under development completed in 2018 and 2017, which contributed \$4,298 to NOI growth. NOI for properties under development for the three months ended September 30, 2018 was \$1,022.

Same store NOI and same property NOI for the three months ended September 30, 2018 increased \$1,356 (1.7%) and \$1,588 (2.0%), respectively, when compared to the prior year for the following reasons:

- contractual rent escalations of 1.5% per year, on average, contained within the Canadian Tire store and CTC's DC leases, which are generally effective January 1st, contributed \$1,285 to NOI growth;
- recovery of capital expenditures and interest earned on the unrecovered balance contributed \$377 to NOI growth; and
- intensifications completed in 2018 and 2017 contributed to \$232 to NOI growth; partially offset by
- the impacts of tenancies at 11 Dufferin Place SE and 25 Dufferin Place SE Calgary, Alberta, which decreased NOI by \$435.

NOI for the nine months ended September 30, 2018 increased \$17,162 (7.1%) compared to the same period in the prior year primarily due to the acquisition of income-producing properties and properties under development completed in 2018 and 2017, which contributed \$12,670 to NOI growth. NOI for properties under development during the nine months ended September 30, 2018 was \$2,178.

Same store NOI and same property NOI for the nine months ended September 30, 2018 increased \$3,938 (1.7%) and \$4,492 (1.9%), respectively, when compared to the prior year primarily due to the following:

- contractual rent escalations of approximately 1.5% per year, on average, pursuant to the Canadian Tire store and CTC's DC leases, which are generally effective January 1st, contributed \$3,543 to NOI growth;
- recovery of capital expenditures and interest earned on the unrecovered balance which contributed \$1,156 to NOI growth;
- the adjustment of certain prior period rent charges contributed \$690 to NOI growth;
- intensifications completed in 2018 and 2017 contributed \$554 to NOI growth; partially offset by
- the impacts of tenancies at 11 Dufferin Place SE and 25 Dufferin Place SE Calgary, Alberta, which decreased NOI by \$2,125.

Funds From Operations

FFO for the three months ended September 30, 2018 amounted to \$62,171 or \$0.289 per unit (diluted non-GAAP) which was \$2,480 (4.2%) or \$0.010 (3.6%) per unit (diluted non-GAAP) higher than the same period in 2017 primarily due to the impact of NOI variances, discussed earlier, partially offset by higher interest expense.

FFO for the nine months ended September 30, 2018 amounted to \$183,995 or \$0.859 per unit (diluted non-GAAP) which was \$6,819 (3.8%) or \$0.018 (2.1%) per unit (diluted non-GAAP) higher than the same period in 2017 primarily due to the impact of NOI variances, discussed earlier partially offset by higher interest expense.

Adjusted Funds From Operations

AFFO for the three months ended September 30, 2018 amounted to \$51,884 or \$0.241 per unit (diluted non-GAAP) which was \$3,000 (6.1%) or \$0.012 (5.2%) per unit (diluted non-GAAP) higher than the same period in 2017 primarily due to the impact of NOI variances, discussed earlier, partially offset by higher interest expense.

AFFO for the nine months ended September 30, 2018 amounted to \$153,325 or \$0.716 per unit (diluted non-GAAP) which was \$8,590 (5.9%) or \$0.029 (4.2%) per unit (diluted non-GAAP) higher than the same period in 2017 primarily due to the impact of NOI variances, as discussed earlier, partially offset by higher interest expense.

Adjusted Funds From Operations Payout Ratio

The AFFO payout ratio for the three months ended and nine months ended September 30, 2018 amounted to 76%, which is consistent with the same periods in 2017.

Adjusted Cashflow From Operations

ACFO for the three and nine months ended September 30, 2018 increased by \$6,819 (14.1%) and \$10,477 (7.3%), respectively, over the same period in 2017 primarily due to the impact of NOI variances, discussed earlier, partially offset by higher interest expense.

Earnings Before Interest and Other Financing Costs, Taxes and Fair Value Adjustments

EBITFV for the three and nine months ended September 30, 2018 increased by \$4,288 (5.1%) and \$13,460 (5.4%), respectively, over the same periods in 2017 primarily due to the impact of NOI variances, discussed earlier.

6.0 LIQUIDITY AND FINANCIAL CONDITION

The following section contains forward-looking information and readers are cautioned that actual results may vary.

6.1 Liquidity

CT REIT intends to fund capital expenditures for acquisitions and development activities through a combination of (i) cash on hand, (ii) issuances of Class B LP Units and/or Class C LP Units, (iii) draws on the Bank Credit Facility, (iv) assumption of existing debt, and/or (v) new public debt or equity financings.

¹ See section 6.10 for details on credit facilities.

² The Bridge Facility is not available to CT REIT at September 30, 2018, see section 6.10.

Cash flow generated from operating the property portfolio represents the primary source of liquidity to service debt and to fund planned maintenance expenditures, leasing costs, general and administrative expenses and distributions (other sources being interest income as well as cash on hand).

6.2 Discussion of Cash Flows

Cash generated for the three months ended September 30, 2018 of \$5,926 is primarily the result of cash generated from operating activities and draws on the Bank Credit Facility, being partially offset by distribution and investing activities.

Cash used for the nine months ended September 30, 2018 of \$3,065 is primarily the result of cash used for the repayment of credit facilities, distributions and investing activities, being partially offset by cash generated from operating activities and the issuance of Debentures.

6.3 Credit Ratings

The senior unsecured debt of CT REIT is rated by S&P Global Ratings acting through Standard and Poor's Rating Services (Canada), a business unit of S&P Global Canada Corp. ("S&P") and by DBRS Limited ("DBRS"), two independent credit rating agencies which provide credit ratings of debt securities for commercial entities. A credit rating generally provides an indication of the risk that the borrower will not fulfill its full obligations in a timely manner with respect to both interest and principal commitments. Rating categories range from highest credit quality (generally "AAA") to default in payment (generally "D").

These ratings are related to and currently equivalent to those of CTC, as CTC holds a significant ownership position in CT REIT and has a strategic relationship with CT REIT. In addition, CTC is expected to continue to be CT REIT's most significant tenant for the foreseeable future.

The following table sets out the current credit ratings of CT REIT's senior unsecured debt:

	DBRS		S&P	
	Credit Rating	Trend	Credit Rating	Trend
Credit Ratings (Canadian Standards)	BBB (high)	Stable	BBB+	Stable

6.4 Debt and Capital Structure

CT REIT's debt and capital structure is as follows:

(in thousands of Canadian dollars)

As at	September 30, 2018	December 31, 2017
Class C LP Units	\$ 1,451,550	\$ 1,451,550
Mortgages payable	43,699	44,010
Debentures	1,068,251	869,471

Total indebtedness	\$ 2,596,482	\$ 2,544,972
Unitholders' equity	1,217,702	1,168,777
Non-controlling interests	1,769,738	1,692,664
Total capital under management	\$ 5,583,922	\$ 5,406,413

CT REIT's total indebtedness at September 30, 2018 was higher than at December 31, 2017 primarily due to the issuance of Series F debentures in February 2018, partially offset by a decrease in amounts drawn on the credit facilities, refer to section 6.6 for further details.

CT REIT's Unitholders' equity and non-controlling interests at September 30, 2018 increased as compared to December 31, 2017 primarily as a result of net income exceeding distributions.

Future payments in respect of CT REIT's indebtedness as at September 30, 2018 are as follows:

(in thousands of Canadian dollars)	Mortgages payable		Class C LP Units	Debentures	Credit facilities	Total
	Principal amortization	Maturities				
2018	\$ 107	\$ —	\$ —	\$ —	\$ 32,982	\$ 33,089

	\$ 107	\$ 43,592	\$ 1,451,550	\$ 1,068,251	\$ 32,982	\$ 2,596,482

Interest rates on CT REIT's indebtedness range from 2.16% to 5.00%. The maturity dates on the indebtedness range from January 2019 to May 2038. Total indebtedness at September 30, 2018 had a weighted average interest rate of 4.07% and a weighted average term to maturity of 9.2 years, excluding the credit facilities, which is consistent with the rate and term as at December 31, 2017.

As at September 30, 2018, floating rate and fixed rate indebtedness were \$70,115 and \$2,526,367, respectively.

As at	September 30, 2018	December 31, 2017
Variable rate debt	\$ 70,115	\$ 217,074
Total indebtedness	2,596,482	2,544,972
Variable rate debt / total indebtedness	2.70%	8.53%

CT REIT's variable rate debt to total indebtedness ratio as at September 30, 2018 decreased as compared to December 31, 2017 primarily due to the proceeds of the new debenture offering being used to reduce borrowings drawn on the variable rate credit facilities in 2018.

The table below presents CT REIT's interest in investment properties at fair value that are available to it to finance and/or refinance its debt as at September 30, 2018:

(in thousands of Canadian dollars)	Number of properties	Fair value of investment properties	Percentage of total assets	Mortgages payable	Loan to value ratio
Unencumbered investment properties	338	\$ 5,550,587	97.8%	\$ —	—

Total	340	\$ 5,645,786	99.5%	\$ 43,699	0.8%

The table below presents CT REIT's secured debt as a percentage of total indebtedness:

(in thousands of Canadian dollars)	September 30, 2018	December 31, 2017
As at		
Secured debt	\$ 43,699	\$ 44,010
Total indebtedness	2,596,482	2,544,972
Secured debt / total indebtedness	1.68%	1.73%

CT REIT's secured debt to total indebtedness ratio at September 30, 2018 decreased as compared to December 31, 2017, primarily due to the issuance of Series F debentures in February 2018 partially offset by the repayment of borrowings drawn on its credit facilities.

The table below presents CT REIT's indebtedness to EBITFV ratio:

(in thousands of Canadian dollars)	September 30, 2018	December 31, 2017
As at		
Total indebtedness	\$ 2,596,482	\$ 2,544,972
EBITFV ¹	350,639	334,193
Total indebtedness / EBITFV	7.41	7.62

¹ Non-GAAP measure. Refer to section 10.0 for further information. 2018 EBITFV is annualized based on EBITFV for the nine months ended September 30, 2018.

CT REIT's indebtedness to EBITFV ratio at September 30, 2018 decreased as compared to the indebtedness to EBITFV ratio at December 31, 2017 primarily due to the growth of EBITFV exceeding the growth of CT REIT's total indebtedness. The growth in EBITFV was primarily due to increased NOI, as discussed earlier.

6.5 Interest Coverage Ratio

Interest coverage ratios are used to measure an entity's ability to service its debt. Generally, the higher the ratio is, the lower the risk of default on debt. The ratio is calculated as follows:

(in thousands of Canadian dollars)	Three Months Ended		Nine Months Ended	
For the periods ended September 30,	2018	2017	2018	2017
EBITFV ¹ (A)	\$ 88,582	\$ 84,294	\$ 262,979	\$ 249,519
Interest and other financing charges (B)	\$ 26,362	\$ 24,424	\$ 78,413	\$ 72,086
Interest coverage ratio (A)/(B)	3.36	3.45	3.35	3.46

¹ Non-GAAP measure. Refer to section 10.0 for further information.

The decrease in the interest coverage ratio for the three and nine months ended September 30, 2018, as compared to the same period in 2017, is primarily due to the growth of interest and other financing charges exceeding the growth of CT REIT's EBITFV.

6.6 Indebtedness Ratio

CT REIT has adopted an indebtedness ratio guideline which management uses as a measure to evaluate its leverage and the strength of its equity position, expressed as a percentage of financing provided by debt. CT REIT's Declaration of Trust limits its indebtedness (plus the aggregate par value of the Class C LP Units) to a maximum of 60% of the gross book value, excluding convertible debentures, and 65% including convertible debentures. Gross book value is defined as total assets as reported on the latest consolidated balance sheet.

CT REIT calculates its indebtedness ratio as follows:

(in thousands of Canadian dollars)

As at	September 30, 2018	December 31, 2017
Total indebtedness¹ (A)	\$ 2,596,482	\$ 2,544,972
Total assets (B)	\$ 5,676,689	\$ 5,455,398
Indebtedness ratio (A)/(B)	45.7%	46.7%

¹ Total indebtedness reflects the value of the Class C LP Units, mortgages payable, debentures and draws on the credit facilities.

The indebtedness ratio as at September 30, 2018 decreased compared to the indebtedness ratio as at December 31, 2017 primarily due to CT REIT's 2018 acquisition, intensification and development activities and fair value adjustments made to its investment property portfolio partially offset by an increase in total indebtedness.

6.7 Class C LP Units

As at September 30, 2018 there were 1,451,550 Class C LP Units outstanding, all of which were held by CTC. The Class C LP Units are designed to provide CTC with an interest in the Partnership that entitles holders to a fixed cumulative monthly payment, during the initial fixed rate period for each series of Class C LP Units (the "Initial Fixed Rate Period"), equal to a weighted average rate of 4.70% of the aggregate capital amount ascribed to the Class C LP Units. Such payments are made in priority to distributions made to holders of Class B LP Units and units representing an interest in the GP ("GP Units")(subject to certain exceptions) if, as and when declared by the Board of Directors of the GP and are payable monthly at an annual distribution rate for each series as set out in the table below. In addition, the Class C LP Units are entitled to receive Special Voting Units, refer to section 7.0, in certain limited circumstances.

On expiry of the Initial Fixed Rate Period applicable to each series of Class C LP Units, and each five-year period thereafter, each such series of Class C LP Units is redeemable at par (together with all accrued and unpaid payments thereon) at the option of the Partnership or the holder, upon giving at least 120 days' prior notice. The Partnership further has the ability to settle any of the Class C LP Units at any time after January 1, 2019 at a price equal to the greater of par and a price to provide a yield equal to the then equivalent Government of Canada bond yield plus a spread, so long as such redemption is in connection with a sale of properties.

Such redemptions of Class C LP Units (other than upon a change of control of CT REIT) can be settled at the option of the Partnership, in cash or Class B LP Units of equal value.

During the five-year period beginning immediately following the completion of the Initial Fixed Rate Period, and each five-year period thereafter, if not redeemed, the fixed payment rate for Class C LP Units will be reset, and the holders of Class C LP Units will be entitled, subject to certain conditions, to elect either a fixed rate or floating rate option.

The following table presents the details of the Class C LP Units:

Series of Class C LP Units	Initial subscription price	Annual distribution rate during initial fixed rate period	Expiry of initial fixed rate period	% of Total Class C LP Units

Debentures as at September 30, 2018 had a weighted average interest rate of 3.25% (December 31, 2017 - 3.11%).

On February 7, 2018 CT REIT issued \$200,000 aggregate principal amount of senior unsecured debentures, with an interest rate of 3.87%. The proceeds, net of issuance costs of \$1,289, were used to pay down certain amounts outstanding under its credit facilities and the balance of proceeds were retained for general business purposes.

For the three and nine months ended September 30, 2018, amortization of the transaction costs of \$290 (Q3 2017 - \$210) and \$782 (YTD 2017 - \$551) is included in net interest and other financing charges on the interim statement of income and comprehensive income (refer to Note 12 to the 2017 audited annual consolidated financial statements).

The debentures have been rated "BBB+" by S&P and "BBB (high)" by DBRS, both with a stable outlook. The debentures are direct senior unsecured obligations of CT REIT, refer to section 6.3 for further details.

6.9 Mortgages Payable

Mortgages payable, secured by certain of CT REIT's investment properties, include the following:

(in thousands of Canadian dollars)

As at	September 30, 2018		December 31, 2017	
	Face value	Carrying amount	Face value	Carrying amount
Current	\$ 6,600	\$ 6,573	\$ 422	\$ 415

Total	\$ 43,733	\$ 43,699	\$ 44,048	\$ 44,010

Mortgages payable at September 30, 2018 had a weighted average interest rate of 3.51% (December 31, 2017 – 3.07%).

6.10 Credit Facilities

Bank Credit Facility

CT REIT has a \$300,000 unsecured revolving credit facility with a syndicate of major Canadian third party banks ("Bank Credit Facility") available until September 2022. The Bank Credit Facility bears interest at a rate based on the bank's prime rate of interest or bankers' acceptances plus a margin. A standby fee is charged on the Bank Credit Facility.

As at September 30, 2018, \$32,982 (December 31, 2017 - \$53,941) of borrowings were drawn on the Bank Credit Facility. At September 30, 2018, borrowings under the Bank Credit Facility had a weighted average interest rate of 2.79% (December 31, 2017 - 2.33%).

The table below summarizes the details of the Bank Credit Facility as at September 30, 2018:

(in thousands of Canadian dollars)

	Maximum loan amount	Cash advances	Letters of credit	Available to be drawn
Bank Credit Facility	\$ 300,000	\$ 32,982	\$ 2,265	\$ 264,753

Bridge Facility

CT REIT's loan agreement with CTC ("Bridge Facility") entered into in December 2017 solely for the purpose of facilitating the acquisition of a portfolio of certain investment properties. The Bridge Facility was repaid in Q1 2018 and was not available to CT REIT at September 30, 2018.

As at September 30, 2018, \$nil (December 31, 2017 - \$126,000) borrowings were drawn on the Bridge Facility.

The following section contains forward-looking information and readers are cautioned that actual results may vary.

6.11 Capital Strategy

Management expects the REIT's future debt will be in the form of:

- Class C LP Units (treated as debt for accounting purposes);
- funds drawn on the Bank Credit Facility;
- unsecured public debt; and
- limited use of secured debt.

Management's objectives are to access an optimal cost of capital with the most flexible terms, to have a maturity/redemption schedule (for fixed term obligations) spread over a time horizon so as to manage refinancing risk and to be in a position to finance acquisition and development opportunities when they become available. The Declaration of Trust and the trust indenture dated June 9, 2015, as supplemented by supplemental indentures thereto (the "Trust Indenture") limit the REIT's overall indebtedness ratio to 60% of total aggregate assets, excluding convertible debentures, and 65% including convertible debentures.

CT REIT's indebtedness ratio was 45.7% as at September 30, 2018. Refer to section 6.6 for the definition and calculation of CT REIT's indebtedness ratio.

At September 30, 2018, CT REIT was in compliance with the financial covenants contained in the Declaration of Trust, the Trust Indenture and the Bank Credit Facility.

CT REIT has also adopted interest coverage guidelines which provide an indication of the REIT's ability to service or pay the interest charges relating to the underlying debt.

CT REIT will generally operate its affairs and manage its capital structure so that its interest coverage ratio is in a range of 2.4 to 3.8 times. For the three months ended September 30, 2018, CT REIT's interest coverage ratio was 3.4 times. Refer to section 6.5 for the definition and calculation of CT REIT's interest coverage ratio.

Assuming a future economic environment that is substantially similar to the current environment, management does not foresee any material impediments to refinancing future debt maturities.

The following section contains forward-looking information and readers are cautioned that actual results may vary.

6.12 Commitments and Contingencies

As at September 30, 2018, CT REIT had obligations of \$92,737 (December 31, 2017 - \$39,227) in future payments for the completion of developments, as described in section 4.6. Included in the commitment is \$76,121 due to CTC.

For a description of the REIT's contractual obligations as at December 31, 2017, refer to section 6.4 Debt and Capital Structure of CT REIT's 2017 annual MD&A. There were no significant changes to the outstanding contractual obligations identified at year end, other than those disclosed in this MD&A.

CT REIT has sufficient liquidity to fund these future commitments as a result of (i) its conservative use of leverage on the balance sheet, (ii) liquidity on hand, (iii) its Bank Credit Facility, (iv) an investment grade credit rating, (v) unencumbered assets, and (vi) sufficient operating cash flow retained in the business.

6.13 Base Shelf Prospectus

CT REIT renewed its short form base shelf prospectus in Q2 2017 under which it may raise up to \$2.0 billion of debt and/or equity over the 25 month period ending May 3, 2019 (the "Base Shelf Prospectus"). The Base Shelf Prospectus also qualifies the sale of Units by CTC. In Q1 2018, the REIT issued \$200,000 of debentures under a prospectus supplement dated January 24, 2018 to CT REIT's Base Shelf Prospectus dated April 5, 2017, as described in section 6.8.

7.0 EQUITY

7.1 Authorized Capital and Outstanding Units

CT REIT is authorized to issue an unlimited number of Units. As of September 30, 2018, CT REIT had a total of 90,841,889 Units outstanding, 59,711,094 of which were held by CTC, and 124,145,047 Class B LP Units outstanding (together with a corresponding number of special voting units), all of which were held by CTC.

Class B LP Units are economically equivalent to Units, are accompanied by a special voting unit ("Special Voting Unit") and are exchangeable at the option of the holder for Units (subject to certain conditions). Holders of the Class B LP Units are entitled to receive distributions when declared by the Partnership equal to the per Unit amount of distributions payable on the Units. However, Class B LP Units have limited voting rights over the Partnership.

The following tables summarize the total number of Units issued:

	As at September 30, 2018		
	Units ¹	Class B LP Units	Total
Total outstanding at beginning of period	90,645,295	123,092,866	213,738,161

¹ 166,193 issued pursuant to the REIT's distribution reinvestment plan.

Each Unit is transferable and represents an equal, undivided beneficial interest in the REIT and in any distributions from the REIT. Each Unit entitles the holder to one vote at all meetings of Unitholders.

Special Voting Units are only issued in tandem with Class B LP Units or in limited circumstances, to holders of the Class C LP Units and are not transferable separately from the Class B LP Units or Class C LP Units to which they relate. Each Special Voting Unit entitles the holder thereof to one vote at all meetings of Unitholders or with respect to any written resolution of Unitholders. Except for the right to attend meetings and vote on resolutions, Special Voting Units do not confer upon the holders thereof any other rights.

Net income attributable to Unitholders and weighted average units outstanding used in determining basic and diluted net income per unit are calculated as follows:

7.3 Distributions

CT REIT's primary business goal is to accumulate a portfolio of high-quality real estate assets and deliver the benefits of such real estate ownership to Unitholders. The primary benefit to Unitholders is expected to be reliable, durable and growing distributions over time.

In determining the amount of the monthly distributions paid to Unitholders, the Board applies discretionary judgment to forward-looking cash flow information, such as forecasts and budgets, and many other factors including provisions in the Declaration of Trust, the macro-economic and industry-specific environment, debt maturities, covenants and taxable income.

The Board regularly reviews CT REIT's rate of distributions to ensure an appropriate level of distributions.

On September 14, 2018, CT REIT's Board declared a distribution of \$0.06067 per Unit paid on October 15, 2018 to holders of Units and Class B LP Units of record as of September 28, 2018.

On October 15, 2018, CT REIT's Board declared a distribution of \$0.06067 per Unit payable on November 15, 2018 to holders of Units and Class B LP Units of record as of October 31, 2018.

On November 5, 2018 the Board reviewed the current rate of distribution of \$0.728 per Unit per year and approved an increase in the annual rate of distribution to \$0.757 per Unit per year, or \$0.0631 per Unit monthly, commencing with the December 31, 2018 record date.

One of CT REIT's objectives is to grow monthly distributions. The distribution payments and increases since December 31, 2014 are as follows:

	Monthly distribution per Unit ¹	% increase	Annualized distribution per Unit	Annualized increase per Unit
2019 ²	\$ 0.0631	4.0%	\$ 0.757	\$ 0.0290
2018	\$ 0.06067	4.0%	\$ 0.728	\$ 0.0280
2017	\$ 0.05833	2.9%	\$ 0.700	\$ 0.0200
2016	\$ 0.05667	2.6%	\$ 0.680	\$ 0.0170

2014	\$ 0.05417	—	\$ 0.650	\$ —

¹ The Board has discretion over the determination of monthly and annual distributions.

² Approved by the Board on November 5, 2018.

Net income prepared in accordance with IFRS recognizes certain revenues and expenses at time intervals that do not match the receipt or payment of cash. Therefore, in applying judgment, consideration is given to AFFO (a non-GAAP measure of recurring economic earnings used to assess distribution capacity, refer to section 10.0) and other factors when establishing distributions to Unitholders.

Distributions per unit - paid	\$ 0.182	\$ 0.175	\$ 0.546	\$ 0.525

Distributions for the three and nine months ended September 30, 2018 are higher than the same period in the prior year due to the increase in the annual rate of distributions effective with the first distribution paid in 2018 and higher weighted average number of units outstanding in 2018.

CT REIT's distributions for the three and nine months ended September 30, 2018 are less than the REIT's cash generated from operating activities, cash generated from operating activities reduced by net interest and other financing charges, and AFFO, a non-GAAP measure which is an indicator of CT REIT's distribution capacity.

7.4 Book Value Per Unit

Book value per unit represents total equity from the consolidated balance sheets divided by the sum of the period end Units and Class B LP Units outstanding. It is an indication of the residual book value available to Unitholders. As well, book value per unit is compared to the REIT's Unit trading price in order to measure a premium or discount.

(in thousands of Canadian dollars, except for per unit amounts) As at	September 30, 2018	December 31, 2017
Total equity (A)	\$ 2,987,440	\$ 2,861,441

Book value per unit (A)/(B)	\$ 13.90	\$ 13.39

CT REIT's book value per unit as at September 30, 2018 increased from the book value per unit as at December 31, 2017 primarily due to net income exceeding distributions.

8.0 RELATED PARTY TRANSACTIONS

CT REIT's controlling Unitholder is CTC, which, on September 30, 2018, held an 85.5% effective interest in the REIT, through the ownership of 59,711,094 Units and all of the issued and outstanding Class B LP Units.

In addition to its ownership interest, CTC is CT REIT's most significant tenant representing approximately 92.7% of the annualized base minimum rent earned by CT REIT and occupying 94.5% of its GLA as at September 30, 2018.

In the normal course of its operations, CT REIT enters into various transactions with related parties that have been valued at amounts agreed to between the parties and recognized in the interim financial statements. Investment property transactions with CTC amounted to \$58,193 (2017 - \$106,405) for the nine months ended September 30, 2018. Refer to Note 3 to the interim financial statements for additional information.

CT REIT and CTC are parties to a number of commercial agreements which govern the relationships among such parties, including the Services Agreement and the Property Management Agreement which are described below.

Services Agreement

Under the Services Agreement, CTC provides the REIT with certain administrative, financial, information technology, internal audit and other support services as may be reasonably required from time to time (the "Services"). CTC provides these Services to the REIT on a cost recovery basis pursuant to which CT REIT reimburses CTC for all costs and expenses incurred by CTC in connection with providing the Services, plus applicable taxes. The Services Agreement is automatically renewable for one year terms, unless otherwise terminated in accordance with its terms. The Services Agreement was automatically renewed for 2018 and CTC will continue to provide such Services on a cost recovery basis.

Property Management Agreement

Under the Property Management Agreement, CTC provides the REIT with certain customary property management services (the "Property Management Services"). CTC provides these Property Management Services to the REIT on a cost recovery basis pursuant to which the REIT reimburses CTC for all costs and expenses incurred by CTC in connection with providing the Property Management Services, plus applicable taxes. The Property Management Agreement is automatically renewable for one year terms, unless otherwise terminated in accordance with its terms. The Property Management Agreement was automatically renewed for 2018 and CTC will continue to provide such Property Management Services on a cost recovery basis.

Refer to CT REIT's 2017 AIF available on SEDAR at www.sedar.com for additional information on related party agreements and arrangements with CTC.

CT REIT's policy is to conduct all transactions and settle all balances, with related parties, on market terms and conditions. Pursuant to the Declaration of Trust all related party transactions are subject to the approval of the independent trustees of CT REIT.

The following table summarizes CT REIT's related party transactions as at September 30, 2018, excluding acquisition, intensification and development activities which are contained in section 4.0:

9.0 ACCOUNTING POLICIES AND ESTIMATES

9.1 Significant Areas of Estimation

The preparation of the interim financial statements requires management to apply judgments, and to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. Estimates are based upon historical experience and on various other assumptions that are reasonable under the circumstances. The result of ongoing evaluation of these estimates forms the basis for applying judgment with regards to the carrying values of assets and liabilities and the reported amounts of revenues and expenses. Actual results may differ from estimates. CT REIT's critical judgments in applying significant accounting policies are described in Note 2 of CT REIT's 2017 audited annual consolidated financial statements, the most significant of which is the fair value of investment properties.

Fair Value of Investment Properties

To determine fair value, CT REIT uses the income approach. Fair value is estimated by capitalizing the cash flows that a property can reasonably be expected to produce over its remaining economic life. The income approach is derived from two methods: the OCR method, whereby the net operating income is capitalized at the requisite OCR, or the DCF method, in which the cash flows are projected over the anticipated term of the investment plus a terminal value discounted using an appropriate discount rate. Properties under development are recorded at acquisition cost and are adjusted to fair value at each balance sheet date with the fair value adjustment recognized in earnings.

9.2 Standards, Amendments and Interpretations Issued and Adopted

(i) Financial Instruments

CT REIT has adopted IFRS 9 - *Financial Instruments* ("IFRS 9"), issued in July 2014, and the related consequential amendments to IFRS 7 - *Financial Instruments: Disclosures*, with a date of initial application of January 1, 2018. IFRS 9 introduces new requirements for 1) classification and measurement of financial assets and financial liabilities, 2) impairment for financial assets and 3) general hedge accounting, which represent a significant change from IAS 39 - *Financial Instruments: Recognition and Measurement* ("IAS 39").

IFRS 9 contains three principal classification categories for financial assets: measured at amortized cost, fair value through other comprehensive income ("FVTOCI") and fair value through profit or loss ("FVTPL"). The classification of financial assets under IFRS 9 is generally based on the business model in which a financial asset is managed and its contractual cash flow characteristics. The standard eliminates the previous IAS 39 categories of held to maturity, loans and receivables and available for sale.

Cash and cash equivalents, tenant and other receivables and deposits, which were classified as loans and receivables under IAS 39, are now classified at amortized cost, because their previous category under IAS 39 was eliminated, with no change in the carrying amounts. There were no further changes to the classification of financial asset and liabilities as a result of the adoption of IFRS 9.

Furthermore, IFRS 9 replaces the 'incurred loss' model in IAS 39 with an 'expected credit loss' (ECL) model. The new impairment model applies to financial assets measured at amortized cost. Under IFRS 9, credit losses are recognized earlier than under IAS 39. The adoption of IFRS 9 did not result in any change to CT REIT's allowance for impairment.

CT REIT also early adopted amendments to IFRS 9 issued in October 2017 on January 1, 2018. The component of the amendments relevant to CT REIT relates to clarifying the accounting for the modification of financial liabilities and requires CT REIT to recognize any adjustments to the amortized cost of the financial liability arising from a modification or exchange in profit or loss at the date of the modification or exchange, regardless of whether the changes are substantial and result in derecognition of the financial liability. The adoption of these amendments to IFRS 9 did not have an impact on the REIT.

As a result of adopting IFRS 9, the REIT updated its accounting policies for the recognition, classification and impairment of financial instruments, which are as follows:

Recognition and initial measurement - Financial assets and financial liabilities are recognized in the consolidated balance sheets when the REIT becomes a party to the contractual provisions of a financial instrument or non-financial derivative contract. All financial instruments are measured at fair value on initial recognition.

Transaction costs that are directly attributable to the acquisition or issuance of financial assets and financial liabilities, other than financial assets and financial liabilities classified as FVTPL, are added to or deducted from the fair value on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities classified as FVTPL are recognized immediately in net income.

Classification and subsequent measurement - The REIT classifies financial assets, at the time of initial recognition, according to the REIT's business model for managing the financial assets and the contractual terms of the cash flows.

Financial assets are subsequently measured at amortized cost if both of the following conditions are met and they are not designated as at FVTPL: a) the financial asset is held within a business model whose objective is to hold financial assets to collect contractual cash flows; and b) the contractual terms of the financial asset give rise to cash flows on specified dates that are solely payments of principal and interest on the principal amount outstanding. These assets are subsequently measured at amortized cost using the effective interest rate method, less any impairment, with gains and losses recognized in net income in the period that the asset is derecognized or impaired.

Financial liabilities are subsequently measured at amortized cost using the effective interest rate method with gains and losses recognized in net income in the period that the liability is derecognized.

The REIT measures all financial instruments at amortized cost, except for liabilities for unit based compensation plans which are included in other liabilities and carried at fair value.

Impairment of financial instruments - The REIT recognizes a loss allowance on a forward looking basis at an amount equal to the lifetime ECL on its financial assets measured at amortized cost. Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument.

(ii) Revenue from contracts with customers

The REIT has adopted IFRS 15 - *Revenue from Contracts with Customers* ("IFRS 15") as issued in May 2014 with a date of initial application of January 1, 2018. IFRS 15 outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers; except for contracts that are within the scope of the standards on leases, insurance contracts, and financial instruments. IFRS 15 also contains enhanced disclosure requirements.

The adoption of IFRS 15 did not impact the amount or timing of revenue recognized by the REIT from contracts with customers.

9.3 Standards, Amendments and Interpretations Issued but Not Yet Adopted

Details of the standards, amendments and interpretations issued but not yet adopted are described in Note 2 to CT REIT's 2017 audited annual consolidated financial statements. The following provides an update on the expected impacts to CT REIT's financial statements.

(i) Leases

In January 2016, the International Accounting Standards Board ("IASB") issued IFRS 16 – Leases ("IFRS 16"), which will replace IAS 17 – Leases ("IAS 17") and related interpretations. IFRS 16 provides a single lessee accounting model, requiring the recognition of assets and liabilities for all leases, unless the lease term is 12 months or less or the underlying asset has a low value. IFRS 16 substantially carries forward the lessor accounting in IAS 17, with the distinction between operating leases and finance leases being retained. CT REIT is the lessee for certain ground leases, as disclosed in Note 17 to CT REIT's 2017 audited annual consolidated financial statements, which are in scope for IFRS 16. The adoption of IFRS 16 will result in the recognition of right-of-use assets and lease liabilities associated with ground leases but is not expected to have a significant impact on CT REIT's income. IFRS 16 will change the presentation of cash flows relating to leases as a lessee in CT REIT's Consolidated Statements of Cash Flows, but does not cause a difference in the amount of cash transferred between parties of a lease. CT REIT has determined that all of the leases for which it is a lessee are investment properties. Accordingly, the right-of-use asset will be measured at fair value and classified as investment property at the date of initial application on January 1, 2019. IFRS 16 will be applied for the 2019 annual fiscal period using the modified retrospective approach and therefore CT REIT will not be restating comparative figures.

(ii) IASB annual improvements 2015-2017

In December 2017, the IASB issued amendments to four standards, including IFRS 3 - Business Combinations, IFRS 11 - Joint Arrangements, IAS 12 - Income Taxes and IAS 23 - Borrowing Costs. These amendments will be effective for annual periods beginning on or after January 1, 2019. The implementation of these amendments is not expected to have a significant impact on CT REIT.

10.0 NON-GAAP MEASURES

CT REIT uses non-GAAP measures including NOI, same store NOI, same property NOI, FFO, FFO per unit - basic, FFO per unit - diluted (non-GAAP), AFFO, AFFO per unit - basic, AFFO per unit - diluted (non-GAAP), AFFO payout ratio, ACFO and EBITFV. CT REIT believes these non-GAAP measures and ratios provide useful supplemental information to both management and investors in measuring the financial performance of CT REIT in meeting its principle objective of the creation of Unitholder value by generating reliable, durable and growing monthly distributions. When calculating diluted FFO and AFFO per unit, management excludes the effect of settling the Class C LP Units with Class B LP Units, which is required when calculating diluted units in accordance with IFRS.

These measures and ratios do not have a standardized meaning prescribed by GAAP and therefore they may not be comparable to similarly titled measures and ratios presented by other publicly traded entities, and should not be construed as an alternative to other financial measures determined in accordance with GAAP.

10.1 Net Operating Income

CT REIT defines NOI as property revenue less property expense adjusted further for straight-line rent and land lease expense. Management believes that NOI is a useful key indicator of performance as it represents a measure of property operations over which management has control. NOI is also a key input in determining the value of the portfolio.

(in thousands of Canadian dollars) For the periods ended September 30,	Three Months Ended			Nine Months Ended		
	2018	2017	Change	2018	2017	Change

Net operating income	\$ 86,814	\$ 80,928	7.3 %	\$ 257,507	\$ 240,345	7.1 %

Same Store NOI

Same store NOI is a non-GAAP financial measure which reports the period-over-period performance of the same asset base having consistent gross leasable area in both periods. To calculate same store NOI growth, NOI is further adjusted to remove the impact of lease cancellation fees and other non-recurring items. CT REIT management uses this measure to gauge the change in asset productivity and asset value.

Same Property NOI

Same property NOI is a non-GAAP financial measure that is consistent with the definition of same store NOI above, except that same property includes the NOI impact of intensifications. CT REIT management uses the measure to gauge the change in asset productivity and asset value, as well as measure the additional return earned by incremental capital investments in existing assets.

The following table summarizes the same store and same property components of NOI:

² For the purposes of calculating diluted per unit amounts, diluted units includes restricted and deferred units issued under various plans and excludes the effects of settling the Class C LP Units with Class B LP Units.

10.2(i) Funds From Operations

FFO is a non-GAAP financial measure of operating performance used by the real estate industry, particularly by those publicly traded entities that own and operate income-producing properties. FFO should not be considered as an alternative to net income or cash flows provided by operating activities determined in accordance with IFRS. CT REIT calculates its FFO in accordance with Real Property Association of Canada's ("REALPAC") "White Paper on Funds From Operations & Adjusted Funds From Operations for IFRS" ("White Paper on FFO & AFFO") issued in February 2017 which replaced REALPAC's "White Paper on FFO" issued in April 2014. The use of FFO, together with the required IFRS presentations, has been included for the purpose of improving the understanding of the operating results of CT REIT.

Management believes that FFO provides an operating performance measure that, when compared period-over-period, reflects the impact on operations of trends in occupancy levels, rental rates, operating costs and property taxes, acquisition activities and interest costs, and provides a perspective of the financial performance that is not immediately apparent from net income determined in accordance with IFRS.

FFO adds back to net income items that do not arise from operating activities, such as fair value adjustments. FFO, however, still includes non-cash revenues related to accounting for straight-line rent and makes no deduction for the recurring capital expenditures necessary to sustain the existing earnings stream.

10.2(ii) Adjusted Funds From Operations

AFFO is a non-GAAP measure of recurring economic earnings used in the real estate industry to assess an entity's distribution capacity. AFFO should not be considered as an alternative to net income or cash flows provided by operating activities determined in accordance with IFRS. CT REIT calculates its AFFO in accordance with REALPAC's White Paper on FFO & AFFO.

CT REIT calculates AFFO by adjusting FFO for non-cash income and expense items such as amortization of straight-line rents. FFO is also adjusted for a reserve for maintaining productive capacity required for sustaining property infrastructure and revenue from real estate properties and direct leasing costs. As property capital expenditures do not occur evenly during the fiscal year or from year to year, the normalized capital expenditure reserve in the AFFO calculation, which is used as an input in assessing a REIT's distribution payout ratio, is intended to reflect an average annual spending level. The reserve is primarily based on a 15-year average expenditure as initially determined by building condition reports prepared during 2013 by an independent consultant for Canadian Tire stores and Other CTC Banners.

The following table compares capital expenditures during the period 2014-2018 to the normalized capital expenditure reserve used in the calculation of AFFO:

(in thousands of Canadian dollars)

Period ended September 30, 2018		\$ 16,848	\$ 11,921	\$ 4,897	

The normalized capital expenditure reserve exceeded actual capital expenditures by \$5,005 during the four year period of 2014-2017. The normalized capital expenditure reserve per square foot has increased since 2013 which reflects changes in asset mix (primarily due to an increase in multi-tenanted retail investment properties) and inflation in expected costs. Management expects there will be periods in the future where actual capital expenditures per square foot will exceed the normalized capital expenditure reserve per square foot rate. The current period reserve is based upon unit costs that are anticipated to be realized in work to be completed in the current period.

The normalized capital expenditure reserve varies from the capital expenditures incurred due to the seasonal nature of the expenditures. As such, CT REIT views the normalized capital expenditure reserve as a more meaningful measure. Refer to section 4.11 for additional information.

10.3 AFFO Payout Ratio

The AFFO payout ratio is a non-GAAP measure of the sustainability of the REIT's distribution payout. CT REIT uses this metric to provide transparency on performance and the overall management of the existing portfolio assets. Management considers the AFFO payout ratio to be the best measure of the REIT's distribution capacity.

For the periods ended September 30,	Three Months Ended			Nine Months Ended		
	2018	2017	Change	2018	2017	Change
Distribution per unit - paid (A)	\$ 0.182	\$ 0.175	4.0%	\$ 0.546	\$ 0.525	4.0%
AFFO per unit - diluted (non-GAAP) ¹ (B)	\$ 0.241	\$ 0.229	5.2%	\$ 0.716	\$ 0.687	4.2%
AFFO payout ratio (A)/(B)	76%	76%	—%	76%	76%	—%

¹ For the purposes of calculating diluted per unit amounts, diluted units includes restricted and deferred units issued under various plans and excludes the effects of settling the Class C LP Units with Class B LP Units.

10.4 Diluted Non-GAAP per Unit Calculations

Management views the diluted non-GAAP per unit measure as a meaningful measure as the full conversion of the Class C LP Units with Class B LP Units is not considered a likely scenario. As such, management calculates the REIT's fully diluted per unit FFO and AFFO amounts excluding the effects of settling the Class C LP Units with Class B LP Units.

The following table reconciles the calculation of the weighted average diluted units non-GAAP:

For the periods ended September 30,	Three Months Ended		Nine Months Ended	
	2018	2017	2018	2017
Weighted average units outstanding - diluted (non-GAAP)	214,842,060	213,706,652	214,264,405	210,639,855

10.5 Adjusted Cashflow From Operations

ACFO is a non-GAAP financial measure developed by REALPAC for use by the real estate industry as a sustainable economic cash flow metric. ACFO should not be considered as an alternative to cash flows provided by operating activities determined in accordance with IFRS. CT REIT calculates its ACFO in accordance with REALPAC's "White Paper on Adjusted Cashflow from Operations for IFRS" issued in February 2017. The purpose of this white paper is to provide guidance on the definition of ACFO to promote consistent disclosure amongst reporting issuers. Management believes that the use of ACFO, combined with the required IFRS presentations, improves the understanding of the operating cash flow of CT REIT.

CT REIT calculates ACFO from cash flow generated from operating activities by adjusting for non-operating adjustments to changes in working capital and other, net interest and other financing charges and normalized capital expenditure reserve.

A reconciliation from the IFRS term "Cash Generated from Operating Activities" (refer to the condensed consolidated statements of cash flows (unaudited) for the three and nine months ended September 30, 2018 and September 30, 2017) to ACFO is as follows:

(in thousands of Canadian dollars) For the periods ended September 30,	Three Months Ended			Nine Months Ended		
	2018	2017	Change	2018	2017	Change ¹
Cash generated from operating activities	\$ 82,836	\$ 72,227	14.7 %	\$ 247,835	\$ 231,682	7.0%
Non-operating adjustments to changes in working capital and other	4,348	5,655	(23.1)%	388	(1,812)	NM
Net interest and other financing charges	(26,325)	(24,335)	8.2 %	(78,294)	(71,953)	8.8%
Normalized capital expenditure reserve	(5,632)	(5,139)	9.6 %	(16,848)	(15,313)	10.0%
Adjusted cashflow from operations	\$ 55,227	\$ 48,408	14.1 %	\$ 153,081	\$ 142,604	7.3%

¹ NM - not meaningful.

The non-operating adjustments to changes in working capital and other for three months ended September 30, 2018 is primarily due to the payment of accrued property taxes. The non-operating adjustments to changes in working capital and other for nine months ended September 30, 2018 is primarily due to the timing of payments and subsequent recovery of property taxes offset by accrual of commodity taxes payable.

10.6 Earnings Before Interest and Other Financing Costs, Taxes and Fair Value Adjustments

EBITFV is a non-GAAP measure of a REIT's operating cash flow and it is used in addition to IFRS net income because it excludes major non-cash items (including fair value adjustments on investment properties), interest expense and other financing costs, income tax expense, losses or gains on disposition of property, and other non-recurring items that may occur under IFRS that management considers non-operating in nature. EBITFV should not be considered as an alternative to net income or cash flows provided by operating activities determined in accordance with IFRS.

EBITFV is used as an input in some of CT REIT's debt metrics, providing information with respect to certain financial ratios that CT REIT uses in measuring its debt profile and assessing the REIT's ability to satisfy its obligations, including servicing its debt.

For the three and nine months ended September 30, 2018, EBITFV was calculated as follows:

(in thousands of Canadian dollars)	Three Months Ended			Nine Months Ended		
For the periods ended September 30,	2018	2017	Change	2018	2017	Change
Net income and comprehensive income	\$ 79,147	\$ 70,562	12.2 %	\$ 226,405	\$ 220,183	2.8 %

11.0 ENTERPRISE RISK MANAGEMENT

To preserve and enhance Unitholder value over the long term, CT REIT approaches the management of risk strategically through its Enterprise Risk Management Program ("ERM Program").

The ERM Program provides an integrated approach to the management of risks, supporting the REIT's strategies and objectives, and is described in detail in section 11.0 of CT REIT's 2017 annual MD&A.

The REIT continues to further develop and refine processes and tools underlying the ERM Program.

12.0 INTERNAL CONTROL AND PROCEDURES

Details related to disclosure controls and procedures and internal control over financial reporting are disclosed in section 12.0 of the MD&A contained in CT REIT's 2017 annual MD&A.

Changes in Internal Control Over Financial Reporting

During the three months ended September 30, 2018, there have been no changes in CT REIT's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, CT REIT's internal control over financial reporting.

13.0 FORWARD-LOOKING INFORMATION

This MD&A, and the documents incorporated by reference herein, contain forward-looking statements that involve a number of risks and uncertainties, including statements regarding the outlook for CT REIT's business results of operations. Forward-looking statements are provided for the purposes of providing information about CT REIT's future outlook and anticipated events or results and may include statements regarding known and unknown risks and uncertainties and other factors that may cause the actual results to differ materially from those indicated. Such factors include, but are not limited to, general economic conditions, financial position, business strategy, availability of acquisition opportunities, budgets, capital expenditures, financial results including fair value adjustments and cash flow assumptions upon which they are based, cash, taxes, plans and objectives of or involving CT REIT. Particularly, statements regarding future acquisitions, developments, distributions, results, performance, achievements, prospects or opportunities for CT REIT or the real estate industry are forward-looking statements. In some cases, forward-looking information can be identified by such terms such as "may," "might," "will," "could," "should," "would," "occur," "expect," "plan," "anticipate," "believe," "intend," "estimate," "predict," "potential," "continue," "likely," "schedule," "resolved to," or the negative thereof or other similar expressions concerning matters that are not historical facts.

Some of the specific forward-looking statements in this document include, but are not limited to, statements with respect to the following:

- CT REIT's growth strategy and objectives under section 2.0;
- CT REIT's fair value of property portfolio under section 4.4;
- CT REIT's development activities under section 4.6;
- CT REIT's leasing activities under section 4.10;
- CT REIT's recoverable capital costs under section 4.11;
- CT REIT's ERP and its effect under section 5.1;
- CT REIT's fair value adjustment on investment properties under section 5.1;
- CT REIT's capital expenditures to fund acquisitions and development activities under section 6.1;
- CT REIT's capital strategy under section 6.11;
- CT REIT's Commitments as at September 30, 2018 under section 6.12;
- CT REIT's distributions under section 7.3;
- CT REIT's capital expenditures under section 10.2(ii);
- CT REIT's access to available sources of debt and/or equity financing;
- the expected tax treatment of CT REIT and its distributions to Unitholders;
- CT REIT's ability to expand its asset base, make accretive acquisitions, develop or intensify its Properties and participate with CTC in the development or intensification of the Properties; and
- the ability of CT REIT to continue to qualify as a "real estate investment trust," as defined pursuant to the ITA.

CT REIT has based these forward-looking statements on factors and assumptions about future events and financial trends that it believes may affect its financial condition, results of operations, business strategy and financial needs, including that the Canadian economy will remain stable over the next 12 months, that inflation will remain relatively low, that tax laws remain unchanged, that conditions within the real estate market, including competition for acquisitions, will be consistent with the current climate, that the Canadian capital markets will provide CT REIT with access to equity and/or debt at reasonable rates when required, that CTC will continue its involvement with CT REIT on the basis described in its 2017 AIF, and that the ERP will be implemented and operated as expected.

Although the forward-looking statements contained in this MD&A are based upon assumptions that management of CT REIT believes are reasonable, based on information currently available to management, there can be no assurance that actual results will be consistent with these forward-looking statements. Forward-looking statements necessarily involve known and unknown risks and uncertainties, many of which are beyond the REIT's control, that may cause CT REIT's, or the industry's, actual results, performance, achievements, prospects and opportunities in future periods to differ materially from those expressed or implied by such forward-looking statements. These risks and uncertainties include, among other things, the factors discussed under the "Risk Factors" section of the 2017 AIF.

For more information on the risks, uncertainties and assumptions that could cause CT REIT's actual results to differ from current expectations, please also refer to CT REIT's public filings available on SEDAR at www.sedar.com and by a link at www.ctreit.com.

CT REIT cautions that the foregoing list of important factors and assumptions is not exhaustive and other factors could also adversely affect its results. Investors and other readers are urged to consider the foregoing risks, uncertainties, factors and assumptions carefully in evaluating the forward-looking information and are cautioned not to place undue reliance on such forward-looking information. Statements that include forward-looking information do not take into account the effect that transactions or non-recurring or other special items announced or occurring after the statements are made have on CT REIT's business. For example, they do not include the effect of any dispositions, acquisitions, asset write-downs or other charges announced or occurring after such statements are made. The forward-looking information in this MD&A is based on certain factors and assumptions made as of the date hereof or the date of the relevant document incorporated herein by reference, as applicable. CT REIT does not undertake to update the forward-looking information, whether written or oral, that may be made from time to time by it or on its behalf, to reflect new information, future events or otherwise, except as required by applicable securities laws.

Information contained in or otherwise accessible through the websites referenced in this MD&A or the documents incorporated by reference herein (other than CT REIT's profile on SEDAR at www.sedar.com) does not form part of this MD&A or the documents incorporated by reference herein and is not incorporated by reference into this MD&A. Notes to the Condensed Consolidated Financial Statements (Unaudited)

For the three and nine months ended September 30, 2018 and 2017

(All dollar amounts are in thousands, except unit and per unit amounts)

1. NATURE OF CT REAL ESTATE INVESTMENT TRUST

CT Real Estate Investment Trust is an unincorporated, closed-end real estate investment trust. CT Real Estate Investment Trust and its subsidiaries, unless the context requires otherwise, are together referred to in these unaudited condensed consolidated interim financial statements ("interim financial statements") as "CT REIT" or the "REIT". CT REIT commenced operations on October 23, 2013, and was formed to own income-producing commercial properties located primarily in Canada. The principal and registered head office of CT REIT is located at 2180 Yonge Street, Toronto, Ontario M4P 2V8.

Canadian Tire Corporation, Limited ("CTC") owned an 85.5% effective interest in CT REIT as of September 30, 2018, consisting of 59,711,094 of the issued and outstanding units of CT REIT ("Units") and all of the issued and outstanding Class B limited partnership units ("Class B LP Units") of CT REIT Limited Partnership (the "Partnership"), which are economically equivalent to and exchangeable for Units. CTC also owns all of the issued and outstanding Class C limited partnership units ("Class C LP Units") of the Partnership (see Note 4). The Units are listed on the Toronto Stock Exchange (the "TSX") under the symbol CRT.UN.

2. SIGNIFICANT ACCOUNTING POLICIES

(a) Statement of compliance

These interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). CT REIT prepared these interim financial statements for the three and nine months ended September 30, 2018 in accordance with International Accounting Standard ("IAS") 34 – *Interim Financial Reporting*. These interim financial statements should be read in conjunction with the REIT's 2017 audited annual consolidated financial statements. Other than standards, amendments and interpretations adopted as disclosed in Note 2(d), these interim financial statements have been prepared using the accounting policies that were described in Note 3 to the REIT's 2017 audited annual consolidated financial statements.

These interim financial statements were approved for issuance by CT REIT's Board of Trustees (the "Board"), on the recommendation of its Audit Committee, on November 5, 2018.

(b) Basis of presentation

These interim financial statements have been prepared on the historical cost basis except for investment properties and liabilities for unit-based compensation plans, which are measured at fair value.

These interim financial statements are presented in Canadian dollars ("C\$"), which is CT REIT's functional currency, rounded to the nearest thousand, except per unit amounts.

(c) Judgments and estimates

The preparation of these interim financial statements in accordance with IFRS requires management to make judgments and estimates that affect the application of accounting policies and the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of these interim financial statements and the reported amounts of revenue and expenses during the reporting periods presented. Actual results may differ from estimates made in these interim financial statements.

Judgments are made in the selection and assessment of CT REIT's accounting policies. Estimates are used mainly in determining the measurement of recognized transactions and balances. Estimates are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Judgment and estimates are often interrelated. CT REIT's judgments and estimates are continually re-evaluated to ensure they remain appropriate. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in future periods affected.

Details of the accounting policies subject to judgments and estimates that CT REIT believes could have the most significant impact on the amounts recognized in these interim financial statements are described in Note 2 to CT REIT's 2017 audited annual consolidated financial statements.

(d) Standards, amendments and interpretations issued and adopted***(i) Financial instruments***

CT REIT has adopted IFRS 9 - *Financial Instruments* ("IFRS 9"), issued in July 2014, and the related consequential amendments to IFRS 7 - *Financial Instruments: Disclosures*, with a date of initial application of January 1, 2018. IFRS 9 introduces new requirements for 1) classification and measurement of financial assets and financial liabilities, 2) impairment for financial assets and 3) general hedge accounting, which represent a significant change from IAS 39 - *Financial Instruments: Recognition and Measurement* ("IAS 39").

IFRS 9 contains three principal classification categories for financial assets: measured at amortized cost, fair value through other comprehensive income ("FVTOCI") and fair value through profit or loss ("FVTPL"). The classification of financial assets under IFRS 9 is generally based on the business model in which a financial asset is managed and its contractual cash flow characteristics. The standard eliminates the previous IAS 39 categories of held to maturity, loans and receivables and available for sale.

Cash and cash equivalents, tenant and other receivables and deposits, which were classified as loans and receivables under IAS 39, are now classified at amortized cost, because their previous category under IAS 39 was eliminated, with no change in the carrying amounts. There were no further changes to the classification of financial asset and liabilities as a result of the adoption of IFRS 9.

Furthermore, IFRS 9 replaces the 'incurred loss' model in IAS 39 with an 'expected credit loss' (ECL) model. The new impairment model applies to financial assets measured at amortized cost. Under IFRS 9, credit losses are recognized earlier than under IAS 39. The adoption of IFRS 9 did not result in any change to CT REIT's allowance for impairment.

CT REIT also early adopted amendments to IFRS 9 issued in October 2017 on January 1, 2018. The component of the amendments relevant to CT REIT relates to clarifying the accounting for the modification of financial liabilities and requires CT REIT to recognize any adjustments to the amortized cost of the financial liability arising from a modification or exchange in profit or loss at the date

of the modification or exchange, regardless of whether the changes are substantial and result in derecognition of the financial liability. The adoption of these amendments to IFRS 9 did not have an impact on the REIT.

As a result of adopting IFRS 9, the REIT updated its accounting policies for the recognition, classification and impairment of financial instruments, which are as follows:

Recognition and initial measurement - Financial assets and financial liabilities are recognized in the consolidated balance sheets when the REIT becomes a party to the contractual provisions of a financial instrument or non-financial derivative contract. All financial instruments are measured at fair value on initial recognition.

Transaction costs that are directly attributable to the acquisition or issuance of financial assets and financial liabilities, other than financial assets and financial liabilities classified as FVTPL, are added to or deducted from the fair value on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities classified as FVTPL are recognized immediately in net income.

Classification and subsequent measurement - The REIT classifies financial assets, at the time of initial recognition, according to the REIT's business model for managing the financial assets and the contractual terms of the cash flows.

Financial assets are subsequently measured at amortized cost if both of the following conditions are met and they are not designated as at FVTPL: a) the financial asset is held within a business model whose objective is to hold financial assets to collect contractual cash flows; and b) the contractual terms of the financial asset give rise to cash flows on specified dates that are solely payments of principal and interest on the principal amount outstanding. These assets are subsequently measured at amortized cost using the effective interest rate method, less any impairment, with gains and losses recognized in net income in the period that the asset is derecognized or impaired.

Financial liabilities are subsequently measured at amortized cost using the effective interest rate method with gains and losses recognized in net income in the period that the liability is derecognized.

The REIT measures all financial instruments at amortized cost, except for liabilities for unit based compensation plans which are included in other liabilities and carried at fair value.

Impairment of financial instruments - The REIT recognizes a loss allowance on a forward looking basis at an amount equal to the lifetime ECL on its financial assets measured at amortized cost. Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument.

(ii) Revenue from contracts with customers

The REIT has adopted IFRS 15 - *Revenue from Contracts with Customers* ("IFRS 15") as issued in May 2014 with a date of initial application of January 1, 2018. IFRS 15 outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers; except for contracts that are within the scope of the standards on leases, insurance contracts, and financial instruments. IFRS 15 also contains enhanced disclosure requirements.

The adoption of IFRS 15 did not impact the amount or timing of revenue recognized by the REIT from contracts with customers.

(e) Standards, amendments and interpretations issued and not yet adopted

Details of the standards, amendments and interpretations issued but not yet adopted are described in Note 2 to CT REIT's 2017 audited annual consolidated financial statements. The following provides an update on the expected impacts to CT REIT's financial statements.

(i) Leases

In January 2016, the International Accounting Standards Board ("IASB") issued IFRS 16 – Leases ("IFRS 16"), which will replace IAS 17 – Leases ("IAS 17") and related interpretations. IFRS 16 provides a single lessee accounting model, requiring the recognition of assets and liabilities for all leases, unless the lease term is 12 months or less or the underlying asset has a low value. IFRS 16 substantially carries forward the lessor accounting in IAS 17, with the distinction between operating leases and finance leases being retained. CT REIT is the lessee for certain ground leases, as disclosed in Note 17 to CT REIT's 2017 audited annual consolidated financial statements, which are in scope for IFRS 16. The adoption of IFRS 16 will result in the recognition of right-of-use assets and lease liabilities associated with ground leases but is not expected to have a significant impact on CT REIT's income. IFRS 16 will change the presentation of cash flows relating to leases as a lessee in CT REIT's Consolidated Statements of Cash Flows, but does not cause a difference in the amount of cash transferred between parties of a lease. CT REIT has determined that all of the leases for which it is a lessee are investment properties. Accordingly, the right-of-use asset will be measured at fair value and classified as investment property at the date of initial application on January 1, 2019. IFRS 16 will be applied for the 2019 annual fiscal period using the modified retrospective approach and therefore CT REIT will not be restating comparative figures.

(ii) IASB annual improvements 2015-2017

In December 2017, the IASB issued amendments to four standards, including IFRS 3 - Business Combinations, IFRS 11 - Joint Arrangements, IAS 12 - Income Taxes and IAS 23 - Borrowing Costs. These amendments will be effective for annual periods beginning on or after January 1, 2019. The implementation of these amendments is not expected to have a significant impact on CT REIT.

3. INVESTMENT PROPERTIES

The following table summarizes CT REIT's investment property portfolio holdings:

To determine fair value, CT REIT uses the income approach. Fair value is estimated by capitalizing the cash flows that the property can reasonably be expected to produce over its remaining economic life. The income approach is derived from two methods: the overall capitalization rate (“OCR”) method, whereby the net operating income is capitalized at the requisite OCR, or the discounted cash flow (“DCF”) method, in which the cash flows are projected over the anticipated term of the investment plus a terminal value discounted using an appropriate discount rate.

As at September 30, 2018, management's determination of fair value was updated for current market assumptions, informed by market capitalization rates provided by independent valuation professionals.

CT REIT had obtained independent valuations such that substantially all of its properties were externally appraised over a four-year period. CT REIT has modified its use of independent valuations for Q4 2018. The scope of properties subject to external valuations over the four year cycle has changed from 100% to approximately 80% of the portfolio's IFRS fair value by excluding any single tenant asset that has a fair value, in management's estimation, below a certain threshold.

The fair value of investment properties is based on Level 3 inputs (see Note 19 to CT REIT's 2017 audited annual consolidated financial statements for definition of levels). There have been no transfers during the period between levels.

The significant inputs used to determine the fair value of CT REIT's income-producing properties are as follows:

	Properties valued by the OCR method	Properties valued by the DCF method
Number of properties	282	58
Value at September 30, 2018	\$ 4,178,531	\$ 1,467,255
Discount rate	—%	6.96%
Terminal capitalization rate	—%	6.52%
Overall capitalization rate	6.17%	—%
Hold period (years)	—	10

Valuations determined by the OCR method are most sensitive to changes in capitalization rates. Valuations determined by the DCF method are most sensitive to changes in discount rates.

The following table summarizes the sensitivity of the fair value of income-producing properties to changes in the capitalization rate and discount rate, respectively:

Rate sensitivity	OCR Sensitivity		DCF Sensitivity	
	Fair value	Change in fair value	Fair value	Change in fair value

Included in CT REIT's portfolio are 10 (2017 – nine) properties which are situated on ground leases with remaining initial terms of between one and 38 years (December 31, 2017 – one and 38 years), and an average remaining initial term of 14 years (December 31, 2017 – 16 years).

4. CLASS C LP UNITS

The Class C LP Units entitle the holder to a fixed cumulative monthly payment, during the initial fixed rate period for each Series of Class C LP Units (the “Initial Fixed Rate Period”), equal to a weighted average rate of 4.70% of the aggregate capital amount ascribed to the Class C LP Units, in priority to distributions made to holders of the Class B LP Units and the GP shares, subject to certain exceptions.

On expiry of the Initial Fixed Rate Period applicable to each series of Class C LP Units, and each five-year period thereafter, each such series of Class C LP Units is redeemable at par (together with all accrued and unpaid payments thereon) at the option of the Partnership or the holder, upon giving at least 120 days’ prior notice. The Partnership further has the ability to settle any of the Class C LP Units at any time after January 1, 2019 at a price equal to the greater of par and a price to provide a yield equal to the then equivalent Government of Canada bond yield plus a spread, so long as such redemption is in connection with a sale of properties.

Such redemptions of Class C LP Units (other than upon a change of control of CT REIT) can be settled at the option of the Partnership, in cash or Class B LP Units of equal value.

During the five-year period beginning immediately following the completion of the Initial Fixed Rate Period, and each five-year period thereafter, if not redeemed, the fixed payment rate for Class C LP Units will be reset, and the holders of Class C LP Units will be entitled, subject to certain conditions, to elect either a fixed rate or floating rate option.

The following table presents the details of the Class C LP Units:

Series	Expiry of initial fixed rate period	Annual distribution rate during initial fixed rate period	Carrying amount at September 30, 2018	Carrying amount at December 31, 2017
Series 3	May 31, 2020	4.50%	\$ 200,000	\$ 200,000
Series 4	May 31, 2024	4.50%	200,000	200,000

Current			\$ —	\$ —
Non-current			1,451,550	1,451,550
Total			\$ 1,451,550	\$ 1,451,550

For the three and nine months ended September 30, 2018, interest expense of \$17,054 (Q3 2017 – \$17,055) and \$51,164 (YTD 2017 - \$51,771), respectively, was recognized in respect of the Class C LP Units (see Note 12). The holders of the Class C LP Units may elect to defer receipt of all or a portion of distributions declared by CT REIT until the first business day following the end of the fiscal year. If the holder so elects to defer receipt of payments, CT REIT will loan the holder an amount equal to the deferred payment without interest, and the loan will be due and payable in full on the first business day following the end of the fiscal year in which the loan was advanced, the holder having irrevocably directed that any payment of the deferred payments be applied to repay such loans. At the election of the holder, payments on the Class C LP Units for the three and nine months ended September 30, 2018 of \$16,916 (Q3 2017 – \$16,916) and \$45,110 (YTD 2017 – \$45,463), respectively, were deferred until the first business day following the end of the fiscal year and non-interest bearing loans equal to the deferred payments were advanced in lieu thereof. The net amount of payments due in respect of the Class C LP Units at September 30, 2018 of \$5,685 (December 31, 2017 – \$5,685) is included in other liabilities on the interim balance sheets.

5. MORTGAGES PAYABLE

Mortgages payable, secured by certain of CT REIT's investment properties, include the following:

	September 30, 2018		December 31, 2017	
	Face value	Carrying amount	Face value	Carrying amount
Current	\$ 6,600	\$ 6,573	\$ 422	\$ 415
Non-current	37,133	37,126	43,626	43,595
Total	\$ 43,733	\$ 43,699	\$ 44,048	\$ 44,010

Future repayments are as follows:	Principal amortization	Maturities	Total
2018	\$ 107	\$ —	\$ 107
2019	—	43,626	43,626
Total contractual obligation	\$ 107	\$ 43,626	\$ 43,733
Unamortized portion of mark to market on mortgages payable assumed at the acquisition of properties			9
Unamortized transaction costs			(43)
			\$ 43,699

Mortgages payable have interest rates that range from 3.49% to 3.60%, and have maturity dates that range from January 2019 to December 2019. Mortgages payable at September 30, 2018 had a weighted average interest rate of 3.51% (December 31, 2017 – 3.07%). At September 30, 2018, floating rate and fixed rate mortgages were \$37,133 (December 31, 2017 – \$37,133) and \$6,600 (December 31, 2017 – \$6,915), respectively.

Investment properties having a fair value of \$95,199 (December 31, 2017 – \$95,704) have been pledged as security for mortgages payable.

6. DEBENTURES

Debentures as at September 30, 2018, had a weighted average interest rate of 3.25% (December 31, 2017 - 3.11%).

On February 7, 2018 CT REIT issued \$200,000 aggregate principal amount of senior unsecured debentures, with an interest rate of 3.87%.

For the three and nine months ended September 30, 2018, amortization of the transaction costs of \$290 (Q3 2017 - \$210) and \$782 (YTD 2017 - \$551) are included in interest and other financing charges on the interim statements of income and comprehensive income (see Note 12).

7. CREDIT FACILITIES

CT REIT's credit facilities are comprised of the following:

	September 30, 2018	December 31, 2017
Bank Credit Facility	\$ 32,982	\$ 53,941
Bridge Facility	—	126,000
	\$ 32,982	\$ 179,941

(a) Bank Credit Facility

CT REIT has a \$300,000 unsecured revolving credit facility with a syndicate of major Canadian third party banks ("Bank Credit Facility") available until September 2022. The Bank Credit Facility bears interest at a rate based on the bank's prime rate of interest or bankers' acceptances plus a margin. A standby fee is charged on the Bank Credit Facility.

As at September 30, 2018, \$32,982 (December 31, 2017 – \$53,941) of borrowings were drawn on the Bank Credit Facility and \$2,265 (December 31, 2017 – \$2,065) of letters of credit were outstanding under the Bank Credit Facility. At September 30, 2018, borrowings under the Bank Credit Facility had a weighted average interest rate of 2.79% (December 31, 2017 – 2.33%).

(b) Bridge Facility

CT REIT's loan agreement with CTC ("Bridge Facility") entered into in December 2017 solely for the purpose of facilitating the acquisition of a portfolio of certain investment properties. The Bridge Facility was repaid in Q1 2018 and was not available to CT REIT at September 30, 2018.

As at September 30, 2018, \$nil (December 31, 2017 – \$126,000) borrowings were drawn on the Bridge Facility.

14. SEGMENTED INFORMATION

CT REIT has one segment for financial reporting purposes which comprises the ownership and operation of primarily retail investment properties located across Canada.

15. COMMITMENTS AND CONTINGENCIES

CT REIT has agreed to indemnify, in certain circumstances, the trustees and officers of CT REIT and its subsidiaries.

As at September 30, 2018, CT REIT had obligations of \$92,737 (December 31, 2017 – \$39,227) in future payments for the completion of developments. Included in the commitments is \$76,121 due to CTC.

16. RELATED-PARTY TRANSACTIONS

In the normal course of operations, CT REIT enters into various transactions with related parties that have been measured at amounts agreed to between the parties and are recognized in the consolidated financial statements.

(a) Arrangements with CTC

Services Agreement

Under the Services Agreement, CTC provides the REIT with certain administrative, financial, information technology, internal audit and other support services as may be reasonably required from time to time (the “Services”). CTC provides these Services to the REIT on a cost recovery basis pursuant to which CT REIT reimburses CTC for all costs and expenses incurred by CTC in connection with providing the Services, plus applicable taxes. The Services Agreement is automatically renewable for one year terms, unless otherwise terminated in accordance with its terms. The Services Agreement was automatically renewed for 2018 and CTC will continue to provide such Services on a cost recovery basis.

Property Management Agreement

Under the Property Management Agreement, CTC provides the REIT with certain customary property management services (the “Property Management Services”). CTC provides these Property Management Services to the REIT on a cost recovery basis pursuant to which the REIT reimburses CTC for all costs and expenses incurred by CTC in connection with providing the Property Management Services, plus applicable taxes. The Property Management Agreement is automatically renewable for one year terms, unless otherwise terminated in accordance with its terms. The Property Management Agreement was automatically renewed for 2018 and CTC will continue to provide such Property Management Services on a cost recovery basis.

(b) Transactions and balances with related parties

Transactions with CTC are comprised of the following, excluding acquisition, intensification and development activities with CTC which are contained in Note 3:

For the periods ended September 30,	Note	Three months ended		Nine months ended	
		2018	2017	2018	2017

Net balance due to CTC	\$ 1,497,950	\$ 1,599,124

¹ Includes distributions deferred at the election of the holders of the Class B LP Units.

17. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

The fair value of the Class C LP Units is determined by discounting contractual principal and interest payments at estimated current market interest rates for the instrument. Current market interest rates are determined with reference to current benchmark rates for a similar term and current credit spreads for debt with similar terms and risks.

The fair value of the Class C LP Units, debentures and mortgages payable at September 30, 2018, is \$1,511,576, \$1,045,462 and \$44,057 respectively. The fair value measurement of the Class C LP Units and mortgages payable is based on Level 2 inputs. The significant inputs used to determine the fair value of the Class C LP Units and mortgages payable are interest rates, term to maturity, and credit spreads. The debentures are actively traded on the secondary market and the fair value is determined using Level 1 inputs. There have been no transfers during the period between levels.

Financial assets consist of cash and cash equivalents, tenant and other receivables and deposits which are classified at amortized cost. Financial liabilities, other than those discussed in the preceding paragraph, consist of other liabilities, Bank Credit Facility, Bridge Facility and distributions payable, which are classified as other liabilities and carried at amortized cost, except for liabilities for unit based compensation plans which are included in other liabilities and are carried at fair value, equivalent to the trading price of Units, which is a Level 1 input. The carrying amounts of the liabilities for the unit based compensation plans approximate their fair value due to their short-term nature.

18. CAPITAL MANAGEMENT AND LIQUIDITY

CT REIT's objectives when managing capital are to ensure access to capital and sufficient liquidity is available to support ongoing property operations, developments and acquisitions while generating reliable, durable and growing monthly cash distributions on a tax-efficient basis to maximize long-term Unitholder value.

The definition of capital varies from entity to entity, industry to industry and for different purposes. CT REIT's strategy and process for managing capital is driven by requirements established under its Declaration of Trust and the trust indenture dated June 9, 2015, as supplemented by supplemental indentures, pursuant to which the debentures were issued, and the Bank Credit Facility.

As at September 30, 2018, CT REIT was in compliance with all of its financial covenants. Under these financial covenants, CT REIT has sufficient flexibility to fund business growth and maintain or amend distribution rates within its existing distribution policy.
